AI Innovations Steal the Show at India AI Impact Summit 2026 Expo with Continued High Visitor Engagement and Global Buzz

AI-Driven Cybersecurity Highlights Secure, Future-Ready Systems Empowering Businesses and Public Institutions

Posted On: 18 FEB 2026 6:16PM by PIB Delhi

On the third day of the India AI Impact Summit 2026, Expo spread across 10 Pavilions remains a major attraction, drawing strong participation from industry leaders, start-ups, academic institutions, government representatives and citizens. A large number of youth and students were seen at the exhibition arena in spite of the inclement weather to witness live demonstrations of cutting-edge Artificial Intelligence (AI) tools and technologies.

A key focus area at the Expo is AI-driven cybersecurity, Fintech solutions designed to strengthen digital infrastructure against emerging threats. Exhibitors have showcased advanced Managed Detection and Response (MDR) platforms, AI-powered threat intelligence systems,multilayered prevention-first security

frameworks, secure end-to-end AI transactions for the next phase of digital commerce. These solutions combine artificial intelligence with human expertise to detect anomalies, prevent cyber-attacks, and respond rapidly to incidents, thereby reducing risks and safeguarding critical digital assets.

According to experts, predictive analytics, real-time monitoring, and AI-enabled response systems can help businesses, government departments, and public institutions strengthen cyber security systems.

The exhibition has also showcased AI applications in governance, enterprise systems integration, smart urban platforms and digital infrastructure management, reinforcing the role of AI in building scalable and efficient systems.

Visitors are actively interacting with exhibitors to understand practical deployment models, data security standards, compliance mechanisms and real-world impact. The enthusiastic response from students and young professionals reflect growing interest in AI as a career.

The India AI Impact Summit 2026 Expo is a platform for collaboration between academia, industry and government. The strong footfall at the exhibitions underlines the relevance of AI-driven solutions in strengthening science, innovation and resilience while democratising access to advanced technologies. The Summit highlights India's commitment to building secure, inclusive and future-ready AI ecosystems for sustainable growth.
